

I can't believe how big business has chosen to be a partisan company. Big business will no longer be big business once the larger majority of people who do not want Mr. Bush in office stop viewing the sinclair broadcast network. FCC you should be regulating what is televised. The show that will be on Kerry is nothing other than anti-kerry broadcasting. Ferinheit 9/11 was a documentary not a bush bashing flick. It was not televised people had the option to pay to go view it.
